

Ethan K.B.

Visionary, Adaptive, Optimistic

"We keep moving forward opening up new doors and doing new things because we're curious. And curiosity keeps leading us down new paths. We're always exploring and experimenting."
- Walt Disney

BIOGRAPHY

Because of his passion for chemistry, Ethan seeks to study chemical engineering during his college life. He volunteers at a local pediatrics clinic to establish a welcoming environment for patients, and in school, he is the president of Filmmakers' Club and creates engaging short films for others to watch. Additionally, he is a council member in Red Cross to assist those who have been deeply affected during the pandemic. Ethan also strives to spread awareness about his heritage by working as a digital media coordinator for the Filipinx American Student Association. In his free time, you can find him setting a volleyball or walking along a river with a camera in hand. His skills in photography and filmmaking have connected him to various nonprofits in developing promotional materials for their organization.
