

Stephanie S.

Considerate, Dedicated, Courteous

You may not control all
the events that happen to
you, but you can decide
not to be reduced by
them.

- Maya Angelou

BIOGRAPHY

Since joining the 49ers STEM Leadership Institute (SLI) in eighth grade, Stephanie has been able to be exposed to various STEM fields. Taking advantage of the vast opportunities presented to her, her work has been recognized in various competitions, such as earning FIRST Tech Challenge's Qualifying Winning Alliance Award and Honorable Mention at Synopsys Science Fair. In academics, Stephanie has challenged herself and demonstrated her dedication and ambition by taking 20+ honors and AP courses as well as dual enrolling at a local community college.

In school, Stephanie has been actively involved in clubs such as Bruin Book Club, Drama Club, Link Crew, and more. Notably, Stephanie has also started the initiative of teaching and advocating for financial literacy in the district. This drive has led her to volunteer at various organizations dedicated to empowering youth through education in business and finance.

Most of her time outside of school is dedicated to volunteering at her local Church's Catechism office. One of her proudest accomplishments there was leading the Catechism staff in the formulation of an internationally recognized Marian Consecration program for children.

In her free time, Stephanie relishes watching "slime tutorials," having petty debates at the dinner table, and hosting dance parties. ^

About the 49ers STEM Leadership Institute

The 49ers STEM Leadership Institute (49ers SLI) provides multi-year, year-round academic support, STEM enrichment, skills training, and leadership opportunities to students in middle and high school. Students, who are with the program for six years from 7th through 12th grade, commit annually to 300+ hours of program learning time in addition to their typical school hours. By cultivating student mastery in STEM subjects and in key skill areas, the program prepares students for college and empowers them to pursue their passions, so that they may become the well-rounded leaders of the future. The 49ers STEM Leadership Institute is made possible by the strong partnership between Silicon Valley Education Foundation, 49ers Foundation, Chevron, and the Santa Clara Unified School District.
